

Accelerated Services

Introduction

The Clinical Biosafety Services (CBS) **Accelerated Services Program** expedites the preparation of Sites that will be conducting human gene therapy research by proactively preparing required documents for their inaugural Institutional Biosafety Committee (IBC) meeting ahead of study initiation.

- Faster turnaround time for scheduling an IBC meeting
- Completion of the NIH Registration process
- Reduction in patient care interruption
- Low stress, no additional cost

Process

STEP 1: SCHEDULE CALL

You will be contacted by email to schedule an introductory virtual call.

STEP 2: PROCESS OVERVIEW

During the call, we will explain the IBC preparation process.

STEP 3: COLLECT INFORMATION

CBS will assist you through the entire process, based on your site-specific needs and schedule.

All required documents can be sent to CBS via email or cloud-based portal.

STEP 4: SCHEDULE IBC MEETING

Upon Site selection, we will contact you to review study documents and schedule the IBC meeting.
